

**WICKHURST GREEN SPORTS PAVILION
BROADBRIDGE HEATH
WEST SUSSEX**

As part of a major development of new homes, Countryside Properties has provided a new community facility mainly for use by Broadbridge Heath Football Club.

The pavilion has been designed to complement The Bridge Leisure Centre which is adjacent to the site.

Of traditional construction the development provides a community hall, bar, kitchen, four team changing rooms and three referees changing rooms, male and female toilets, office, meeting room, plant room and store. The full length windows in the main hall overlook the sports pitch to maximise viewing for spectators.

External works, which were carried out by the Company's in-house Groundworks and Civil Engineering Department, included the construction of an access road and paths around the building.
